About this drug list

This is a list of the most commonly prescribed medications covered on the Cigna Healthcare Standard 4-Tier Prescription Drug List as of July 1, 2025. Medications are listed in alphabetical order (A-Z) by the condition they treat.

The drug list is updated on a regular basis; so, this document may not show all of the medications your plan covers. Also, your plan may not cover every medication on this list. Log in to the myCigna App or **myCigna.com** to see the most up-to-date list of medications your plan covers.

How to read this drug list

Use the table below to understand how medications are covered on the Cigna Healthcare Standard 4-Tier Prescription Drug List.*

BLOOD PRESSURE/HEART MEDICATIONS			
Medication	Tier	Notes	
amlodipine	1		Tier (cost-share level) gives you an idea of how much you may pay for a medication
amlodipine-benazepril	1		
amlodipine-olmesartan	1	QL	
amlodipine-valsartan	1		
atenolol	1		
bisoprolol-hctz	1		Medications are listed in alphabetical order (A-Z) within each column
CALAN SR	3		
CAMZYOS	3	SP, PA, QL	
candesartan	1		
cartia xt	1		
carvedilol	1		Brand-name medications are in all CAPITAL letters
carvedilol er	1	QL	
CATAPRES-TTS 1	3		
CATAPRES-TTS 2	3		
CATAPRES-TTS 3	3		
clonidine patch, tablet	1		Specialty medications have SP listed next to them in the Notes column
CORLANOR ORAL SOLUTION	2	SP, PA	
CORLANOR TABLET	2	PA	
dilt xr	1		
diltiazem tablet	1		
diltiazem 12hr er	1		Generic medications are in all lowercase letters
diltiazem 24hr er	1		
diltiazem 24hr er (cd)	1		
diltiazem 24hr er (la)	1	QL	
diltiazem 24hr er (xr)	1		
DIOVAN	3	ST	Medications that may have extra coverage requirements have letters (acronyms) listed next to them in the Notes column
DIOVAN HCT	3	ST	

*This table is just an example. It may not show how these medications are currently covered on this drug list.

Brand-name medications are in all capital letters

In this drug list, generic medications are listed in all lowercase letters and brand-name medications are listed in all CAPITAL letters.

Tiers

We put covered medications into tiers (or cost-share levels). Usually, the higher the tier, the higher the price you'll pay for the medication.

Tier 1	Generics. These medications are covered at your plan's lowest cost-share. A generic works in the same way and provides the same clinical benefits as the brand-name medication – and usually cost much less. ³	\$
Tier 2	Preferred Brands. These medications usually have one or more lower-cost generic that treats the same condition.	\$\$
Tier 3	Non-Preferred Brands. These medications are covered at your plan's highest cost-share. Non-preferred brands usually have a generic and/or preferred brand alternative(s) that treats the same condition.	\$\$\$
Tier 4	Specialty. These medications are covered at your plan's highest cost-share. This tier includes both injectable and oral (those you take by mouth) specialty medications.	\$\$\$\$

Letters (acronyms) in the Notes column

In this drug list, some medications have **letters (acronyms)** next to them in the Notes column. Here's what they mean.

PA	Prior Authorization* – This medication needs approval from Cigna Healthcare before your plan will cover it. Your doctor's office will have to send us information to review to make sure you meet coverage requirements.
QL	Quantity Limit* – Your plan will only cover so much of this medication at one time. If your doctor wants you to fill more than what's allowed, your doctor's office can ask us to cover more.
ST	Step Therapy* – This is a high-cost medication that has a lower-cost alternative(s) that treats the same condition. Your plan won't cover it until you try at least one preferred medication first (usually a generic or preferred brand) and can show that it didn't work for you. If your doctor feels a preferred medication isn't right for you, your doctor's office can ask us to cover the higher-cost medication.
AGE	Age Requirement* – Your plan will only cover this medication if you're a certain age or within a certain age range. If you're not within the allowed age range and your doctor wants you to use the medication, your doctor's office can ask us to cover it.
SP	This is a specialty medication , which is used to treat a rare and/or complex medical condition. Some plans may only cover up to a 30-day supply and/or require you to fill it at a preferred specialty pharmacy.

* Not all plans have extra coverage requirements on medications. Log in to the myCigna App or myCigna.com, or check your plan materials, to see if yours does.

Letters (acronyms) in the Notes column (cont.)

PPACA	Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires plans to cover the full cost of this preventive medication or product. This means it costs you \$0 – you won't pay a cost-share to fill it.
OC	Plans can choose to cover certain medications, products and/or drug classes that aren't usually covered. If a medication has OC next to it, log in to the myCigna App or myCigna.com to see if your plan covers it.

How to find your medication

Medications are listed in alphabetical order (A-Z) by condition. Conditions are also listed in alphabetical order (A-Z). To see which page your medication is on, find your condition in the table below. Then, go to the page listed next to it to see which medications are covered.

Frequently Asked Questions (FAQs)

Here are answers to questions you may have about your drug list and prescription medication coverage.

Q. Why do you make changes to the drug list?

A. We review and update the drug list on a regular basis to make sure you have coverage for low-cost, safe and effective medications. We make changes for many reasons; for example, when a new medication comes out or is no longer available, or when a medication's price changes. These changes may include:

- **Moving a medication to a lower cost tier.** This can happen at any time during the year.
- **Moving a brand medication to a higher cost tier when a generic comes out.** This can happen at any time during the year.
- **Moving a medication to a higher cost tier and/or no longer covering a medication.** This usually happens twice a year on January 1 and July 1.
- **Adding extra coverage requirements to a medication.** This usually happens twice a year on January 1 and July 1.

When we make a change that affects your medication (for example, it'll cost more, won't be covered, and/or has an extra coverage requirement), we let you know before it happens. This way, you have time to talk with your doctor about your options. Only you and your doctor can decide what's best for your treatment.

Q. Why doesn't my plan cover certain medications?

A. To help lower your overall health care costs, your plan doesn't cover certain high-cost brand-name medications that have lower-cost alternatives that can treat the same condition. If your medication isn't covered and your doctor feels a different medication isn't right for you, your doctor's office can ask us to cover it through our review process.

There are some medications and products that your plan won't cover for any reason because they're a "plan (or benefit) exclusion." This means the medication or product isn't on your drug list, and there's no option to ask us to cover it through our review process. For example, your plan doesn't cover (or "excludes") medications that the U.S. Food and Drug Administration (FDA) hasn't approved.

Q. How do you decide which medications to cover?

A. The Cigna Healthcare Prescription Drug List is developed with the help of the Cigna Healthcare Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists, most of whom work outside of Cigna Healthcare. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market.

The Cigna Healthcare Health Plan Commercial Value Assessment Committee (HVAC) then looks at the results of the P&T Committee's clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

Q. Why do certain medications need approval before my plan will cover them?

A. The review process helps make sure you're getting coverage for the right medication, at the right cost, in the right amount and for the right situation.

Q. How do I know if a medication needs approval?

A. Check your drug list or log in to the myCigna App or **myCigna.com** and use the Price a Medication tool. If the medication has:

- **PA** (Prior Authorization) or **ST** (Step Therapy) next to it, it needs approval before your plan will cover it.
- **QL** (Quantity Limit) next to it, you may need approval depending on how much you're filling at one time.
- **AGE** (Age Requirement) next to it, you may need approval depending on your age.

Q. What types of medications usually need approval?

A. Medications that:

- May not be safe when you take them with other medications.

Frequently Asked Questions (FAQs) *(cont.)*

- Have lower-cost alternatives that work just as well at treating the same condition.
- Should only be used for certain health conditions.
- Are often used in the wrong way or are abused (taken more often than you should).

Q. What types of medications usually have quantity limits?

A. Medications that are often:

- Taken in a greater amount or used for a longer time than they should be.
- Used in the wrong way or are abused (taken more often than you should).

Q. What medications are part of Step Therapy?

A. They're usually high-cost medications that treat conditions such as:

- ADD/ADHD
- Allergies
- Bladder problems
- Breathing problems
- Depression
- High blood pressure
- High cholesterol
- Osteoporosis
- Pain
- Skin conditions
- Sleep disorders

Q. Why does my medication have an age requirement?

A. Not all medications are right for all ages. Some medications work best for people of a certain age or within a certain age range. As you get older, body changes can decrease the body's ability to break down or get rid of certain medications. This means that the medication may stay in your body longer. So, an older adult may need a lower dose of the medication or a different medication that's safer.

Q. How do I get approval (prior authorization) for my medication?

A. Ask your doctor's office to contact us to start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can download a request form from our provider portal at cignaforhcp.com.

We'll review the information your doctor sends us to make sure you meet coverage requirements for the medication. We'll send you and your doctor a letter

with the decision and next steps. It can take up to five (5) business days to hear from us. You can always check with your doctor's office to find out if we've made a decision. You can also log in to the myCigna App or myCigna.com to see where your medication is in the review process.

Many times, we don't get all of the information we need from the doctor's office to approve coverage. If we don't approve your medication, your doctor can send us more information to review, using the same process as before. We're happy to review the request again. Depending on what your doctor sends this time, we may be able to approve coverage. Or you and your doctor can appeal the decision by sending us a request, in writing, that explains why we should cover the medication.

Q. What happens if I try to fill a prescription that needs approval, but I don't get it ahead of time?

A. When your pharmacist tries to fill your prescription, they'll see that the medication needs our approval before it can be covered. Because you didn't get approval ahead of time, your plan won't cover its cost. If that happens, ask your doctor to contact us to start the coverage review process.

Or you can choose to pay the medication's full cost out-of-pocket directly to the pharmacy. If you do this, the cost won't count toward your annual deductible or out-of-pocket maximum.

Q. What happens if I try to fill a prescription that has a quantity limit?

A. Your pharmacist will only fill the amount your plan covers. If you want to fill more than what's allowed, your doctor's office can ask us to cover it through our review process.

Q. Are all of the medications on this drug list approved by the FDA?

A. Yes.

Q. Does my plan cover medications that the FDA recently approved?

A. We review all recently approved medications and products to see if they should be covered, and if so, at what cost-share (tier). These include, but are not limited to, medications, medical supplies and/or

Frequently Asked Questions (FAQs) *(cont.)*

devices covered under standard pharmacy benefits. It can take up to six months from the date the FDA approved them for us to make a decision.

If your doctor wants you to use a recently approved medication, your doctor's office can ask us to cover it through our review process.

Q. What are preventive medications?

A. Preventive medications help keep you from getting certain health conditions or to keep them from coming back. These include, but are not limited to, asthma, depression, diabetes, heart attack, high blood pressure, high cholesterol, osteoporosis (a disease that causes bones to become weak), prenatal nutrient deficiency (when a pregnant person doesn't get enough of the nutrients they need) and stroke.

Q. Which medications are covered under the health care reform law?

A. The Patient Protection and Affordable Care Act (PPACA), also known as "health care reform," was signed into law on March 23, 2010. This law requires plans to cover the full cost of some prescription preventive medications and over-the-counter (OTC) products. This means it costs you \$0 to fill them – you won't pay any cost-share.

Go to **Cigna.com/PDL** to see a list of \$0 medications. Click on the dropdown next to "Drug Lists for Employer Plans." Under the Preventive Drug Lists section, click on the link for the PPACA No Cost-Share Preventive Drug List. For more information about health care reform, go to **CignaHealthcare.com**.

Q. How can I find out how much my medication will cost me?

A. When you and your doctor are thinking about the right medication for your treatment, knowing how much it costs, what lower-cost alternatives are available, and which pharmacies offer the best prices can help you avoid surprises. Log in to the myCigna App or **myCigna.com** and use the Price a Medication tool to see how much your medication costs before you get to the pharmacy counter – or even before you leave your doctor's office.⁴

Q. What's a cost-share?

A. It's the amount you pay out of your own pocket for a covered prescription and/or an eligible health care or related service. For some plans, the cost-share is a copay; for other plans, it's a coinsurance.

Q. How can I save money on my prescription medications?

A. You should think about using a medication that's covered on a lower tier, such as a generic or preferred brand medication, or by filling a 90-day supply (if your plan allows). Ask your doctor if one of these options may work for you.

Q. What's a generic medication?

A. A generic medication is the same as (or equal to) the brand-name medication. It has the same active ingredient, strength and dosage form, treats the same condition(s), and works in the same way – and usually costs less.³ Generics are usually sold under their chemical or scientific name, instead of the brand name.

Q. Do generics work the same as brand-name medications?

A. Yes. A generic medication works in the same way and provides the same clinical benefit as the brand-name medication.³

Q. What are the differences between generic and brand-name medications?

- A.** The generic and brand-name medication may³:
- Look different. For example, generics may have a different shape, size or color than their brand-name versions.
 - Have a different flavor and/or different preservatives, come in different packaging and/or with different labeling and may expire at different times.

It's important to know that these differences don't affect how the generic works.

Q. My pharmacy isn't in my plan's network. Can I continue to fill my prescriptions there?

A. To get the most from your plan coverage, you should use an in-network pharmacy. If your plan

Frequently Asked Questions (FAQs) (cont.)

offers out-of-network coverage, you'll pay your out-of-network cost-share to fill a prescription there.

Q. Can I fill my prescriptions by mail?

A. Yes, as long as your plan offers home delivery.⁵

Fill maintenance medications through Express Scripts Pharmacy by Evernorth®

Express Scripts Pharmacy is a convenient option when you're using a medication on a regular basis to treat an ongoing health condition. It's simple and safe, and saves you trips to the pharmacy. To learn more, go to **Cigna.com/homedelivery**.

- Easily order, manage, track and pay for your medications on your phone or online.
- Get standard shipping at no extra cost.⁶
- Fill up to a 90-day supply at one time.
- Talk with a pharmacist, 24/7.
- Sign up for automatic refills or refill reminders so you don't miss a dose.⁷
- Use their payment plan (if you need it).

Here are two easy ways to get started:

1. **Online.** Log in to the myCigna App or **myCigna.com** and click on the Prescriptions tab. Choose My Medications from the dropdown menu. Then click the button next to your medication name to move your prescription(s) from your retail pharmacy to home delivery. Or,
2. **By phone.**
 - Call your doctor's office. Ask them to send a 90-day prescription (with refills) to Express Scripts home delivery. Or,
 - Call Express Scripts Pharmacy at **800.835.3784**. They'll contact your doctor's office to get your prescription. Have your ID card, doctor's contact information and medication name(s) ready when you call.

Fill specialty medications through Accredo by Evernorth®

If you're using a specialty medication to treat a rare and/or complex medical condition, Accredo can help. They'll give you the personalized care and support you need. They'll also fill and ship your specialty medication to you. To learn more, go to

Cigna.com/specialty.

- Talk with specially-trained pharmacists and nurses, 24/7.
- Get fast shipping at no extra cost.⁶
- Sign up for refills and reminders. Some refills can be done by text.⁸
- Get help paying for your medication (if you need it).
- Manage and track your medications online.

To get started, call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST and Saturdays, 7:00 am–4:00 pm CST.

Q. Where can I find more information about my pharmacy benefits?

A. Use the online tools and resources on the myCigna App or **myCigna.com**. You can find out how much your medication costs (and what lower-cost options may be available), see which medications your plan covers, find an in-network pharmacy, ask a pharmacist a question, see your pharmacy claims and coverage details, and more. You can also manage your home delivery orders.

Exclusions and limitations for coverage

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:⁹

- Over-the-counter (OTC) medicines (those that do not require a prescription) except insulin unless state or federal law requires coverage of such medicines.
- Prescription medications or supplies for which there is a prescription or OTC therapeutic equivalent or therapeutic alternative.
- Doctor-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or approved by Cigna Healthcare.
- Implantable contraceptive devices covered under the Plan's medical benefit.
- Medications that are not medically necessary.
- Experimental or investigational medications, including U.S. Food and Drug Administration (FDA)-approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication.
- Medications that are not approved by the FDA.
- Prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered.
- Medications used for fertility,¹⁰ sexual dysfunction, cosmetic purposes, weight loss, smoking cessation,¹⁰ or athletic enhancement.
- Prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such products.
- Immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis.
- Replacement of prescription medications and related supplies due to loss or theft.
- Medications which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals.
- Prescriptions more than one year from the date of issue.
- Coverage for prescription medication products for the amount dispensed (days' supply) which is more than the applicable supply limit, or is less than any applicable supply minimum set forth in The Schedule, or which is more than the quantity limit(s) or dosage limit(s) set by the P&T Committee.
- More than one prescription order or refill for a given prescription supply period for the same prescription medication product prescribed by one or more doctors and dispensed by one or more pharmacies.
- Prescription medication products dispensed outside the jurisdiction of the United States, except as required for emergency or urgent care treatment.

In addition to the plan's standard pharmacy exclusions, certain new FDA-approved medication products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless approved by Cigna Healthcare as medically necessary.

Cigna Healthcare reserves the right to make changes to the drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the U.S. Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
2. **For insured plans that must follow Delaware's state insurance laws:** Brand-name antidepressants, smoking cessation, attention deficit hyperactivity disorder (ADHD) and anti-psychotic medications that don't have a generic equivalent available will be covered as Tier 2 (preferred brand). This is true even if the medication is listed as Tier 3 (non-preferred brand) on your plan's drug list. To find out how your specific plans covers these medications, log in to the myCigna App or myCigna.com, or call the number on your ID card.
3. U.S. Food and Drug Administration (FDA) website, "Generic Drug Facts." Content current as of 11/01/21. [fda.gov/drugs/generic-drugs/generic-drug-facts](https://www.fda.gov/drugs/generic-drugs/generic-drug-facts).
4. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.
5. **Not all plans offer Express Scripts Pharmacy and Accredo as covered pharmacy options.** Log in to the myCigna App or myCigna.com, or check your plan materials, to learn more about the pharmacies in your plan's network. Cigna Healthcare, Evernorth, Express Scripts and Accredo are all part of The Cigna Group. This means we have an ownership interest in Express Scripts Pharmacy's home delivery services and Accredo's specialty pharmacy services. However, you have the right to fill prescriptions at any pharmacy in your plan's network (as your plan allows).
6. Your plan pays the cost for standard shipping.
7. Express Scripts Pharmacy can automatically refill certain medications. Log in to the myCigna App or myCigna.com, or call 800.835.3784, to sign up. You can sign up to get emails and/or texts from Express Scripts Pharmacy. To get text messages, you'll have to sign up for the Express Scripts texting service. You can do this online or when you call 800.835.3784 to refill your prescription. Once you sign up, just reply to their welcome text to get started. Standard text messaging rates apply.
8. You can only refill certain specialty medications by text. To get text messages, you'll have to sign up for Accredo's texting service. You can do this when you call Accredo to refill your prescription. Once you sign up, just reply to their welcome text to get started. Standard text messaging rates apply.
9. Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.
10. **For plans that must follow state insurance laws, such as Delaware:** Your plan may provide coverage for infertility medications and smoking cessation medications even if this drug list states that your plan may not cover them. To find out if your specific plan covers these medications, log in to the myCigna App or myCigna.com, or check your plan materials.
