

Commercial Reimbursement Policy

Subject: **Implants - Facility**

Policy Number: **C-14001**

Policy Section: **Facilities**

Last Approval Date: **08/06/2024**

Effective Date: **07/23/2021**

Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by an Anthem Blue Cross and Blue Shield (Anthem) member's benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or revenue codes. These codes denote the services and/or procedures performed and when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Anthem may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date, in accordance with the policy. We reserve the right to review and revise these policies when necessary. When there is an update, we will publish the most current policy to the website.

Policy

The Health Plan does not allow reimbursement for implants that are not implanted in the member, deemed contaminated or considered waste when submitted on a UB-04 unless provider, state or federal contracts and/or mandates indicate otherwise.

Implants can include the following: stents, artificial joints, shunts, pins, plates, screws, anchors and radioactive seeds, in addition to non-soluble, or solid plastic materials used to augment tissues or to fill in areas traumatically or surgically removed. Instruments that are designed to be removed or discarded during the same operative session during which they are placed in the body are not implants. In addition to meeting the above criteria, implants must also remain in the member's body upon discharge from the inpatient stay or outpatient procedure. Staples, sutures, clips, as well as temporary drains, tubes, and similar temporary medical devices shall not be considered implants.

Related Coding

Standard correct coding applies

Exemptions

There are no exemptions to this policy.

Policy History

08/06/2024	Review approved 08/06/2024 and effective 01/01/2025: removed Connecticut exemption (<i>This market is not subject to policy.</i>)
