

## Limited Distribution Drugs (LDD)\*

Current 7/1/2025

Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine if the medication will be covered and if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. The current list of newly marketed drugs can be found on our New to Market Drug list.

### **Important Information:**

1. This list provides information on which specialty pharmacy dispenses the limited distribution drug if physician's office does not want to buy and bill.
2. Please reference the Self-Administered or Provider-Administered Specialty drug list or medication guide for Prior Authorization information.
3. CVS/Caremark Specialty Pharmacy is the exclusive specialty pharmacy for Truli for Health.
