Medications are listed in **alphabetical** order

**Tier** (cost-share level) gives you an idea of how much you may pay for a medication

Medications that have extra coverage requirements will have an **abbreviation** in the Notes column

**Specialty medications** have SRX listed next to them in the Notes column

\*This chart is just a sample. It may not show how these medications are actually covered on the 2025 Cigna Healthcare Plus Tennessee 5-Tier Prescription Drug List.

## Tiers

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

<b>Tier 1</b>	<b>Preferred Generic Medications.</b> This tier typically includes preferred generic medications. These medications have the same strength and active ingredients as brand-name medications, but often cost much less. <b>These medications are covered at your plan's lowest cost-share.</b>	\$
<b>Tier 2</b>	<b>Generic Medications.</b> This tier typically includes most generic medications and some low cost brand-name medications. Generic medications have the same strength and active ingredients as brand-name medications, but often cost much less.	\$\$
<b>Tier 3</b>	<b>Preferred Brand Medications.</b> This tier typically includes preferred brand-name medications and some high-cost generic medications.	\$\$\$
<b>Tier 4</b>	<b>Non-Preferred Medications.</b> This tier typically includes non-preferred brand-name medications and some high-cost generic medications.	\$\$\$\$
<b>Tier 5</b>	<b>Specialty and Other High-Cost Medications.</b> This tier typically includes specialty medications and high-cost generic and brand-name medications. <b>These medications are covered at your plan's highest cost-share.</b>	\$\$\$\$\$

## Letters (acronyms) in the Notes column

In this drug list, some medications have **letters (acronyms)** next to them in the Notes column. Here's what they mean.

<b>PA</b>	<b>Prior Authorization</b> – This medication needs approval from Cigna Healthcare before your plan will cover it. Your doctor's office will have to send us information to review to make sure you meet coverage requirements for the medication.
<b>QL</b>	<b>Quantity Limit</b> – Your plan will only cover a certain amount of this medication at one time. If your doctor wants you to fill more than what's allowed, your doctor's office can ask Cigna Healthcare to approve more.
<b>ST</b>	<b>Step Therapy</b> – This is a prior authorization program. Your plan doesn't cover this high-cost medication until you try at least one lower-cost option first (typically a generic or preferred brand) and it didn't work for you. If your doctor feels a different medication isn't right for you, your doctor's office can ask Cigna Healthcare to approve coverage of this medication.
<b>AGE</b>	<b>Age Requirement</b> – Your plan will only cover this medication if you're a certain age or within a certain age range. If you're not within the allowed age range and your doctor wants you to take this medication, your doctor's office can ask Cigna Healthcare to approve coverage.
<b>SRX</b>	This is a <b>specialty medication</b> , which is used to treat a complex medical condition. <b>Your plan limits specialty medications to a 30-day supply.</b>
<b>LDD</b>	This is a <b>limited distribution drug</b> . This type of medication is only available at specific pharmacies in the United States. It's used to treat conditions that are very hard to manage and require special handling, patient support and monitoring.

## Plan exclusions

There are certain medications and products that your plan doesn't cover at all – and there's no option to ask Cigna Healthcare to consider approving them through the coverage review process. These medications and products are considered to be a "plan or benefit exclusion." For example, your plan doesn't cover medications that aren't approved by the FDA. Log in to the **myCigna App** or **myCigna.com**, or check your plan materials, to see which medications your plan excludes.

## Frequently Asked Questions (FAQs)

Understanding your prescription medication coverage can be confusing. Here are answers to some commonly asked questions.

### **Q. Why do you make changes to the drug list?**

**A.** We regularly review and update your plan's drug list to make sure you're getting coverage for low-cost, safe, clinically effective medications. We make changes for many reasons – like when new medications become available or are no longer available, or when medication prices change. These changes may include:

- Moving a medication to a lower cost tier.
- Moving a brand medication to a higher cost tier when a generic becomes available.
- Moving a medication to a higher cost tier and/or no longer covering a medication.
- Adding extra coverage requirements to a medication.

When we make a change that affects the coverage of a medication you're taking, we let you know before it happens. This way, you have time to talk with your doctor about your options. Only you and your doctor can decide what's best for your treatment.

### **Q. Why doesn't my plan cover certain medications?**

**A.** To help lower your overall health care costs, your plan doesn't cover certain high-cost brand-name medications that have lower-cost alternatives. That's because these lower-cost options work the same as, or similar to, the non-covered medication. If you're taking a medication that isn't covered and your doctor feels a different medication isn't right for you, he or she can ask Cigna Healthcare to consider approving your medication through the coverage review process.

There are also certain medications and products that can't be covered by your plan for any reason because they're considered to be a "plan or benefit exclusion." This means the medication or product isn't on your plan's drug list, and there's no option to ask Cigna Healthcare to consider approving it through the coverage review process. For example, your plan doesn't cover, or "excludes," medications that aren't approved by the U.S. Food and Drug Administration (FDA).

### **Q. How do you decide which medications to cover?**

**A.** The Prescription Drug List is managed by the Health Plan Value Assessment Committee (HVAC), which makes, subject to the Pharmacy and Therapeutics Committee's review and approval of the Prescription Drug List, coverage tier placement decisions of Prescription Drugs or Related Supplies and/or applies utilization management requirements to certain Prescription Drugs or Related Supplies. Your Policy/Service Agreement coverage tiers may contain Prescription Drugs or Related Supplies that are Generic Drugs, Brand Drugs or Specialty Medications. Placement of any Prescription Drug or Related Supplies in a specific tier, and application of utilization management requirements to a Prescription Drug, depends on a number of clinical and economic factors. Clinical factors include, without limitation, the P&T Committee's evaluations of the place in therapy, or relative safety or relative efficacy of the Prescription Drug or Related Supplies, and economic factors include, without limitation, the cost and/or available rebates for Prescription Drugs or Related Supplies. Whether a particular Prescription Drug or Related Supply is appropriate for You or any of Your Family Member(s), regardless of its eligibility coverage under Your Policy/Service Agreement is a determination that is made by You (or Your Family Member) and the prescribing Physician.

### **Q. Why do certain medications need approval before my plan will cover them?**

**A.** The review process helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation.

### **Q. How do I know if I'm taking a medication that needs approval?**

**A.** Log in to the **myCigna App** or **myCigna.com**, or check your plan materials, to learn more about how your plan covers your medications. If your medication has a **PA** or **ST** next to it, your medication needs approval before your plan will cover it. If it has a **QL** next to it, you may need approval depending on the amount you're filling. If it has **AGE** next to it, you may need approval depending on the covered age range for the medication.

## Frequently Asked Questions (FAQs) (cont.)

### Q. What types of medications typically need approval?

A. Medications that:

- May be unsafe when combined with other medications
- Have lower-cost, equally effective alternatives available
- Should only be used for certain health conditions
- Are often misused or abused

### Q. What types of medications typically have quantity limits?

A. Medications that are often:

- Taken in amounts larger than (or for longer than) may be appropriate
- Misused or abused

### Q. What types of medications require Step Therapy?

A. High-cost medications that are used to treat many conditions, such as:

- |                                    |   |
|------------------------------------|---|
| • ADD/ADHD                         | • High blood pressure                     |
| • Allergies                        | • High cholesterol                        |
| • Asthma/COPD                      | • Mental health                           |
| • Cardiovascular health            | • Overactive bladder/<br>bladder problems |
| • Diabetes                         | • Pain management                         |
| • Heartburn/ulcer/<br>stomach acid | • Sleep disorders                         |

### Q. Why does my medication have an age requirement?

A. The FDA considers certain medication to only be clinically appropriate for people of a certain age or within a certain age range.

### Q. How do I get approval (prior authorization) for my medication?

A. Ask your doctor's office to contact Cigna Healthcare to start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can download a request form from the Cigna Healthcare provider portal at [cignaforhcp.com](https://cignaforhcp.com).

Cigna Healthcare will review information your doctor sends us to make sure you meet coverage

requirements for the medication. We'll send you and your doctor a letter with the decision and next steps. It can take up to five (5) business days to hear from us. You can always check with your doctor's office to find out if a decision's been made. You can also log in to the **myCigna App** or **myCigna.com** to check the status of your approval.

If your medication isn't approved, your doctor can send us more information to review, using the same process as before. We're happy to review the request again. Depending on what your doctor sends this time, we may be able to approve coverage. Or, you and your doctor can appeal the decision by sending Cigna Healthcare a written request explaining why the medication should be covered.

### Q. What happens if I try to fill a prescription that needs approval but I don't get approval ahead of time?

A. When your pharmacist tries to fill your prescription, he or she will see that the medication needs preapproval from Cigna Healthcare. Because you didn't get approval ahead of time, your plan won't cover the cost of your medication. You should ask your doctor to contact Cigna Healthcare to start the coverage review process. Or, you can choose to pay the medication's full cost out-of-pocket directly to the pharmacy (the cost can't be applied to your annual deductible or out-of-pocket maximum).

### Q. What happens if I try to fill a prescription that has a quantity limit?

A. Your pharmacist will only fill the amount your plan covers. If you want to fill more than what's allowed, your doctor's office will have to contact Cigna Healthcare and ask us to approve a larger amount.

### Q. Are all of the medications on this drug list approved by the FDA?

A. Yes.

### Q. Does my plan cover medications that the FDA recently approved?

A. We review all recently approved medications and products to see if they should be covered – and if so, at what cost-share (tier). It can take up to six months from the date the FDA approved them to make a decision. These include, but are not limited to,

## Frequently Asked Questions (FAQs) *(cont.)*

medications, medical supplies and/or devices covered under standard pharmacy benefits. If your doctor wants you to use a recently approved medication, he or she can ask Cigna Healthcare to consider approving it through the coverage review process.

### **Q. Which medications are covered under the health care reform law?**

**A.** The Patient Protection and Affordable Care Act (PPACA), commonly referred to as “health care reform,” was signed into law on March 23, 2010. Under this law, certain preventive medications (including some over-the-counter products) may be available to you at no cost-share (\$0), depending on your plan. Log in to the **myCigna App** or **myCigna.com**, or check your plan materials, to learn more about how your plan covers preventive medications. You can also view the PPACA No Cost-Share Preventive Medications drug list at **Cigna.com/PDL**. For more information about health care reform, go to **www.informedonreform.com** or **CignaHealthcare.com**.

### **Q. What are preventive medications?**

**A.** Preventive medications are used to keep certain conditions from developing or from coming back. These conditions include, but are not limited to asthma, depression, diabetes, heart attack, high blood pressure, high cholesterol, osteoporosis, prenatal nutrient deficiency and stroke.

### **Q. How can I find out how much I'll pay for a specific medication?**

**A.** When you and your doctor are considering the right medication for your treatment, knowing how much it costs, what lower-cost alternatives are available and which pharmacies offer the best prices can help you avoid surprises. Log in to the **myCigna App** or **myCigna.com** and use the Price a Medication tool to see how much your medication costs before you get to the pharmacy counter – or, even before you leave your doctor's office.<sup>2</sup>

### **Q. What's a cost-share?**

**A.** It's the amount you pay out of your own pocket for a covered prescription and/or an eligible health care or related service. For some plans, the cost-share is a copay; for other plans, it's a coinsurance.

### **Q. How can I save money on my prescription medications?**

**A.** Consider using a medication that's covered on a lower tier and/or by filling a 90-day supply. You should talk with your doctor to see if one of these options may work for you.

### **Q. What's a generic medication?**

**A.** A generic medication is the same as its brand-name version in safety, effectiveness, quality, strength and dosage, as well as in the way it's taken and used.<sup>3</sup>

Brand-name medications are protected by patents. Patents keep other manufacturers from selling generic versions of the brand-name medication. Once a patent ends, other companies can make and sell a generic version of the brand-name medication. Generics are typically sold under their chemical or scientific name, instead of the manufacturer's patented brand name.

### **Q. Do generics work the same as brand-name medications?**

**A.** Yes. A generic medication works in the same way and provides the same clinical benefit as its brand-name version.

### **Q. What are the differences between generic and brand-name medications?**

**A.** The medications may look different. For example, generics may have a different shape, size or color than their brand-name versions. They may also have a different flavor, have different preservatives, come in different packaging and/or with different labeling and may expire at different times. Generics may look different than their brand-name versions, but they're just as safe and effective.

Generics typically cost much less than brand-name medications – in some cases, up to 85% less. Just because generics cost less, it doesn't mean they're lower quality.

### **Q. My pharmacy isn't in my plan's network. Can I continue to fill my prescriptions there?**

**A.** Your plan doesn't offer out-of-network coverage. For your medication to be covered, you should use an in-network pharmacy.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Please reference [Cigna.com/ifp-drug-list](https://www.cigna.com/ifp-drug-list) for an up-to-date listing. Your plan may cover additional medications; please refer to your policy/service agreement for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the U.S. Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
2. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.
3. U.S. Food and Drug Administration (FDA) website, "Generic Drugs: Questions and Answers." Last updated 03/16/21. [fda.gov/drugs/questions-answers/generic-drugs-questions-answers](https://www.fda.gov/drugs/questions-answers/generic-drugs-questions-answers).
4. Cigna Healthcare maintains an ownership interest in Express Scripts® Pharmacy's home delivery services and Accredo's specialty pharmacy services. However, you have the right to fill prescriptions at any pharmacy in your plan's network. You won't be penalized regardless of where you fill your prescriptions.
5. Standard shipping costs are included as part of your prescription plan.
6. You can sign up to get emails and/or texts from Express Scripts® Pharmacy. To get text messages, you'll have to sign up for the Express Scripts® texting service. You can do this online or over the phone. Once you sign up, simply reply to their welcome text to get started. Standard text messaging rates apply.
7. Some medications aren't available in a 90-day supply and may only be packaged in lesser amounts. For example, three packages of oral contraceptives equal an 84-day supply. Even though it's not a "90-day supply," it's still considered a 90-day prescription. **Tier 5 medications are limited to a 30-day supply.**
8. As allowable by law. For medications administered by a health care provider, Accredo will ship the medication directly to your doctor's office.

Product availability may vary by location and plan type and is subject to change. All health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.
