

Medical Records Documentation Used for Reviews

This protocol lists medical records documentation used and which may be required, when applicable for reviews. This content is developed using the clinical criteria in UnitedHealthcare medical policies in conjunction with the guidance provided by UnitedHealthcare physicians and pharmacists with experience in reviewing service requests for coverage. This medical record documentation content was developed in an effort to decrease the need for repeated requests for additional information and to improve turnaround time for coverage decisions.

We reserve the right to request more information, if necessary. Medical record documentation content used for case review(s) may vary among various UnitedHealthcare Commercial, UnitedHealthcare Community Plan, and UnitedHealthcare Medicare Advantage benefit plans.

This content is provided for reference purposes only and may not include all services. Listing of a service or code in this protocol does not imply that it is a covered or non-covered health service. Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws.

This protocol is the property of UnitedHealthcare and unauthorized copying, use or distribution of this information is strictly prohibited. It is regularly reviewed, updated and subject to change.

Service	Medical Records Used for Reviews
Abnormal Uterine Bleeding and Uterine Fibroids	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Condition requiring procedure 2. Relevant physical exam 3. Signs and symptoms, including uterine bleeding and possible impact on activities of daily living (ADLs) 4. Co-morbid medical condition(s), including, when applicable: <ol style="list-style-type: none"> a. Presence or absence of anemia b. Presence or exclusion of thyroid diseases c. Presence or exclusion of bleeding disorder d. Exclusion of pregnancy e. Presence or absence of pelvic or abdominal pain or discomfort f. Presence or absence of urinary frequency or urgency g. Presence or absence of dyspareunia 5. Reports of all recent imaging studies and applicable diagnostics, including: <ol style="list-style-type: none"> a. Results of cervical cytology b. Results of endometrial biopsy c. Results of hysteroscopy with dilatation and curettage (D & C) d. Uterine or fibroid (s) measurements by imaging within the last year e. Presence or absence of ureteral compression 6. History of past relevant procedure(s)/ surgery (ies) 7. Prior therapies/treatments tried, failed, or contraindicated; include the dates, duration, and reason for discontinuation
Airway Clearance Devices	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Diagnosis 2. Current prescription from physician 3. Failed standard treatments to adequately mobilize retained secretions 4. CT scan report confirming diagnosis of bronchiectasis if applicable 5. Frequency of exacerbations requiring antibiotic therapy 6. Duration and frequency of productive cough 7. For continuation beyond the two-month trial, medical notes documenting <ol style="list-style-type: none"> a. Patient tolerance of the device b. Efficacy in using the device (member's response to therapy)
Ambulance Service – Non-Emergency Transport (Ground or Air)	<p>Include the following:</p> <ol style="list-style-type: none"> 1. Date of Service 2. Ordering physician's name and phone# 3. Physician including reason for requested transport method 4. Any additional equipment or personnel needed for transport 5. Member's diagnosis and chief complaint 6. Member's current condition including: <ol style="list-style-type: none"> a. Co-morbidities b. Current functional limitations c. Description of members inpatient stay and progress if applicable 7. Where member is traveling from including facility name, contact name and phone number 8. Where member is traveling to including facility name, contact name and phone number

Service	Medical Records Used for Reviews
	9. Mileage for transport including air mileage and land mileage for transport
Apheresis	Medical notes documenting the following, when applicable: <ol style="list-style-type: none"> 1. Medical history, including transfusion history 2. Diagnosis 3. Treatment plan
Bariatric Surgery	For initial bariatric surgery, provide medical notes documenting all of the following: <ol style="list-style-type: none"> 1. Height 2. Weight 3. Current and five-year history of BMI (body mass index) 4. Diet history 5. Co-morbidities 6. Medical treatment tried and failed including diet and exercise 7. Psychological evaluation by a licensed behavioral health professional 8. Nutritional consult 9. Name of the facility where the procedure will be performed 10. For subsequent bariatric surgery, provide medical notes documenting all of the above in addition to the following: <ol style="list-style-type: none"> a. Previous unsuccessful medical treatment b. Initial bariatric surgery performed and date and subsequent complications that require further surgical intervention
Beds and Mattresses	Medical notes documenting the following, when applicable: <ol style="list-style-type: none"> 1. Current prescription (written order) from physician, including: <ol style="list-style-type: none"> a. Initial, ongoing, or replacement request b. Rental or purchase c. Specific HCPCS code(s) for item and each accessory requested d. Equipment make, model and price quotation e. If replacement, current device used, date of initial acquisition, status of warranty and reason for replacement 2. Medical notes documenting the following, when applicable: <ol style="list-style-type: none"> a. Diagnosis and detail of member condition(s) or risk(s) b. Current transfer and bed mobility skills c. Current functional limitations with regards to activities of daily living d. Member weight and height e. Reason for positioning of the body not accommodated with a standard bed f. Ability to transfer from a fixed height bed with or without assistance g. Medical need for variable height bed h. Prior approaches tried, failed, or contraindicated; include the dates and reason for discontinuation 3. Physician treatment plan 4. For safety enclosures with beds in addition to the above, also include the following when appropriate: <ol style="list-style-type: none"> a. Evaluation for contraindications to use of the equipment b. Member assessment for physical, environmental, and behavioral factors c. Physician directed written monitoring plan
Breast Imaging for Screening and Diagnosing Cancer	Provider should call the number on the member's ID card when referring for radiology services. Medical notes documenting the following, when applicable: <ol style="list-style-type: none"> 1. Recent history and physical

Service	Medical Records Used for Reviews
	<ol style="list-style-type: none"> 2. Documentation to support medical necessity (e.g., family history, prior treatment, genetic testing results, other imaging studies and diagnostic results, etc.) 3. Applicable CPT code
Breast Reconstruction	<p>NOTE: These documentation requirements only apply when a Pre-Determination is requested. Mastectomy after a diagnosis of breast cancer does not require Prior Authorization/Advance Notification.</p> <p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Diagnosis 2. History of the medical condition(s) requiring treatment or surgical intervention 3. Chief complaint, including history of the complaint 4. Relevant medical and family history 5. Relevant surgical history, including dates and whether the surgery is for removal, replacement (of an implant, specify type, silicon or saline), or revision of a previous surgery 6. Upon request, we may require the specific diagnostic image(s) that show the abnormality for which surgery is being requested. Consultation with requesting surgeon may be of benefit to select the optimal images <p>NOTE: Diagnostic images must be labeled with:</p> <ol style="list-style-type: none"> a. The date taken b. Applicable case number obtained at time of notification, or member's name and ID number on the image(s) <p>Submission of diagnostic imaging is required via the external portal at www.uhcprovider.com/paan; faxes will not be accepted</p> <ol style="list-style-type: none"> 7. Reports of all recent imaging studies and applicable diagnostics 8. For CPT codes 19370 and 19371 require submission of high-quality color photograph(s) <p>NOTE: All photographs must be labeled with the:</p> <ol style="list-style-type: none"> a. Date taken b. Applicable case number obtained at time of notification, or member's name and ID number on the photograph(s) <p>Submission of color photographs can be submitted via the external portal at www.uhcprovider.com/paan; faxes of color photos will not be accepted</p> <ol style="list-style-type: none"> 9. Complications which necessitate the need for removal of the prosthetic <p>NOTE: For capsular contracture include Baker grade and functional impairment</p> <ol style="list-style-type: none"> 10. Physicians plan of care, including estimated volume of breast tissue per breast to be removed
Breast Reduction Surgery	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Diagnosis 2. History of the medical condition(s) requiring treatment or surgical intervention, including: <ol style="list-style-type: none"> a. History of the chief complaint and associated symptoms b. Estimated risk of breast cancer 3. Physical exam including member's height and weight 4. Reports of recent imaging studies and applicable diagnostic tests (within 1 year), including to rule out: <ol style="list-style-type: none"> a. Tumor or malignant changes of the breast b. Orthopedic, neurologic, rheumatologic, endocrine or metabolic condition 5. Description of physiologic functional impairments (e.g., back pain, grooving from bras straps, skin breakdown, paresthesias, etc.) 6. For a diagnosis of macromastia, include high quality color photograph(s); all images must be labeled with the <ol style="list-style-type: none"> a. Date taken

Service	Medical Records Used for Reviews
	<p>b. Applicable case number obtained at time of notification or member's name and ID number on the photograph(s) NOTE: Submission of color image(s) are required and can be submitted via the external portal at www.uhcprovider.com/paan; faxes will not be accepted</p> <p>7. Physicians plan of care, including estimated volume of breast tissue per breast to be removed</p>
Brow Ptosis and Eyelid Repair	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> History of condition requiring treatment Visual complaints, including functional impairments that interfere with activities of daily living (ADL) and ruling out other causes Eye exam including best corrected visual acuity in both eyes Treatments tried, failed, or contraindicated. Include the dates and reason for discontinuation Recent diagnostic testing including: <ol style="list-style-type: none"> Peripheral or Superior Visual Fields automated, reliable, un-taped and taped including percent improvement or number of degrees improvement Reason Visual Field testing is not feasible Marginal reflex distance (MRD-1) High-quality photograph(s); all photos must be: <ol style="list-style-type: none"> Full face, eye level, frontal and lateral with the member looking straight ahead, light reflex visible and centered Labeled with the date taken and the applicable case number obtained at time of notification, or member's name and ID number on the photograph(s) <p>NOTE: Submission of color photos can be submitted via the external portal at www.uhcprovider.com/paan; faxes of color photographs will not be accepted</p>
Carrier Testing Panels for Genetic Diseases	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> Personal history of the condition, if applicable, including age at diagnosis Family history relevant to condition being tested Genetic testing results of family member, if applicable, and reason for testing Ethnicity/ancestry (e.g., Ashkenazi Jewish), if reason for testing Any prior genetic testing results on affected individual in the family Genetic counseling (if available)
Catheter Ablation for Atrial Fibrillation	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> Diagnosis Recent physical exam Signs and symptoms including onset, duration, and frequency Reports of all recent imaging studies and applicable diagnostics Treatments tried, failed, or contraindicated. Include the dates, duration and reason for discontinuation Physician treatment plan
Cell-Free Fetal DNA Testing	<p>Medical office notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> Individual undergoing testing is alloimmunized or at risk for alloimmunization due to maternal RhD status, including presence or absence of red cell antigen antibodies Paternal genotyping shows heterozygosity for RhD or paternal RhD status is unknown Member has been offered and declined invasive diagnostic testing (e.g., amniocentesis, chorionic villus sampling (CVS)) for fetal genotype

Service	Medical Records Used for Reviews
Chromosome Microarray Testing (Non-Oncology Conditions)	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Personal history of the condition, if applicable, including age at diagnosis 2. Complete family history (usually three-generation pedigree) relevant to condition being tested 3. Genetic testing results of family member, if applicable, and reason for testing 4. Any prior genetic testing results 5. Genetic counseling (if available)
Clinical Trials	<p>Provider should call the number on the member's ID card when referring for any clinical trial.</p>
Cochlear Implants	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Diagnoses and relevant medical history, including vaccination status or waiver 2. Degree and frequencies of sensorineural hearing impairment on each side 3. Treatments tried, failed, or contraindicated. Include the dates and reason for discontinuation 4. Physical exam and reports of recent relevant imaging studies, including: <ol style="list-style-type: none"> a. Presence or absence from middle ear infection or mastoid cavity b. An accessible cochlear lumen that is structurally suited to implantation c. Presence or absence of lesions in the auditory nerve and acoustic areas of the central nervous system d. Presence or absence of tympanic membrane perforation 5. Other applicable diagnostic tests 6. Member's cognitive ability to use auditory clues and a willingness to undergo an extended program of rehabilitation 7. Proposed procedure(s) including <ol style="list-style-type: none"> a. Type of cochlear implant or other auditory implant including the name of the device b. Whether this request is part of a staged procedure
Computed Tomographic Colonography	<p>Provider should call the number on the member's ID card when referring for radiology services</p> <p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Recent history and physical 2. Co-morbid medical condition(s) 3. Documentation to support medical necessity 4. Applicable CPT code
Continuous Glucose Monitoring and Insulin Delivery for Managing Diabetes	<p>Insulin Delivery</p> <p>Medical notes documenting the following:</p> <ol style="list-style-type: none"> 1. Provide the member's current type of diabetes (eg., type I type II or Gestational) 2. Member's lab results and office notes from within the last three (3) months 3. Treatment plan 4. Current signed physician order 5. Provide the type of make and model of the device requested <p>CGM Initial Request</p> <p>Medical notes documenting the following:</p> <ol style="list-style-type: none"> 1. Provide the member's current type of diabetes (e.g., type I type II or Gestational) 2. Member's lab results and office notes from within the last three (3) months 3. Treatment plan 4. Frequency and severity of hypoglycemic events, including glucose level 5. Current signed physician order 6. Provide the type of make and model of the device requested

Service	Medical Records Used for Reviews
	<p>CGM Continued Use Medical notes documenting the following:</p> <ol style="list-style-type: none"> 1. Provide the member's current type of diabetes (e.g., type I type II or Gestational) 2. Physician assessment and lab results within the last 6 months including adherence to the prescribed CGM regimen and treatment plan 3. Treatment plan 4. Current signed physician order 5. Provide the type of make and model of the device requested
Core Decompression for Avascular Necrosis	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Condition requiring procedure, including stage of avascular necrosis 2. Signs and symptoms including onset, duration, and frequency 3. Associated co-morbidities 4. Results of all recent imaging and diagnostic tests, including: <ol style="list-style-type: none"> a. Imaging reports (x-ray, CT, bone scan, MRI, etc.) b. Histology 5. Treatments tried, failed or contraindicated, include dates, duration and reason for discontinuation 6. Member's degree of pain and functional disability 7. Proposed procedure
Cosmetic & Reconstructive	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. History of medical conditions requiring treatment or surgical invention which includes all of the following: <ol style="list-style-type: none"> a. To prove medical necessity, a well-defined physical/physiologic abnormality resulting in a medical condition that requires treatment b. Recurrent or persistent functional impairment caused by the abnormality 2. Clinical studies/tests addressing the physical/physiologic abnormality confirming its presence and degree to which it causes impairment 3. High-quality color image(s) of the physical/physiologic abnormality: NOTE: All image(s) must be labeled with the: <ol style="list-style-type: none"> a. Date taken and b. Applicable case number obtained at time of notification, or member's name and ID number on the image(s) Submission of color image(s) are required and can be submitted via the external portal at www.uhcprovider.com/paan; faxes will not be accepted 4. Physician plan of care with proposed procedures and whether this request is part of a staged procedure; indicate how the procedure will improve and/or restore function
Cosmetic & Reconstructive – Tissue Transfer (Flap) Repair	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. History of medical conditions requiring treatment or surgical intervention, including: <ol style="list-style-type: none"> a. A well-defined physical/physiologic abnormality resulting in a medical condition that requires treatment b. Recurrent or persistent functional deficit caused by the abnormality 2. Clinical studies/tests addressing the physical/physiologic abnormality confirming its presence and degree to which it causes impairment 3. Color photos, where applicable, of the physical and/or physiological abnormality 4. Physician plan of care with proposed procedures including expected outcome

Service	Medical Records Used for Reviews
Deep Brain and Cortical Stimulation	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Diagnosis 2. Specific procedure being requested 3. History of the medical condition(s) requiring treatment or surgical intervention, including conditions interfering with activities of daily living <ol style="list-style-type: none"> a. Documentation of signs and symptoms; including onset, duration, and frequency, including:seizures history and number of seizures per month 4. Physical exam 5. Relevant medical history, including: <ol style="list-style-type: none"> a. Medical co-morbidities b. Psychiatric co-morbidities 6. Treatments tried, failed, or contraindicated. Include the dates, duration, and reason for discontinuation 7. Current medications used to treat condition, include start date 8. Relevant surgical history, including previous movement disorder surgery and dates 9. Reports of all recent imaging studies and applicable diagnostics, including: <ol style="list-style-type: none"> a. Results of imaging related to skeletal deformities and cervical myelopathy b. Results of brain MRI c. Results of video electroencephalographic (EEG) monitoring d. Results of levodopa challenge e. Results of Yale-Brown Obsessive-Compulsive Scale (Y-BOCS) 10. Physician treatment plan, including: <ol style="list-style-type: none"> a. Member understanding of surgical risk, complications and need for follow-up b. Planned placement of electrodes for preoperative mapping
Durable Medical Equipment, Orthotics, Medical Supplies, and Repairs/Replacements - Ventilator	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Current prescription from physician including ventilator settings and hours of use per day 2. Face – to – face evaluation which includes <ol style="list-style-type: none"> a. Medical history and respiratory condition supporting the need for a ventilator versus CPAP or BIPAP b. Other therapies with settings trialed, failed or ruled out and clinical justification of failure 3. Additional testing to support need for ventilator vs. CPAP or BiPAP <ol style="list-style-type: none"> a. ABGs b. PFTs c. Overnight Oximetry d. Sleep Study 4. Physician Office Notes that include the following: <ol style="list-style-type: none"> a. Plan of Care to include the use as intermittent or continuous b. Member compliance with the treatment plan <p>Prognosis</p>

Service	Medical Records Used for Reviews
Durable Medical Equipment, Orthotics, Medical Supplies, and Repairs/Replacements - Orthotics	<p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Current prescription from physician 2. Provider office notes including: <ol style="list-style-type: none"> a. Diagnosis b. Physical exam related to support the need of the orthotic. Include the neurological, circulatory, skin and musculoskeletal examination that supports the request c. Functional impairment that is interfering with activities of daily living (ADL's) d. Date and type of injury/ surgery, if applicable 3. Orthotist notes to include the following: <ol style="list-style-type: none"> a. Equipment quote with billing codes and cost b. Reason for the orthotic 4. If a replacement, provide age of current orthotic and reason for replacement
Electric Tumor Treatment Field Therapy	<p>Medical notes documenting the following, when applicable:</p> <p>For treatment of newly diagnosis glioblastoma</p> <ol style="list-style-type: none"> 1. Physician Order 2. Diagnosis 3. Physician notes to include the following <ol style="list-style-type: none"> a. Documenting prior treatment with Radiation Therapy b. Provide results of the Karnofsky Performance Status (KPS) or Eastern Cooperative Oncology Group (ECOG) Performance Status c. Documentation that the member has been counselled that the device must be worn at least 18 hours daily d. Documentation that member is only taking Temozolomide for cancer drug <p>For treatment of a reoccurrence of glioblastoma</p> <ol style="list-style-type: none"> 1. Physician Order 2. Diagnosis 3. Physician notes to include the following: <ol style="list-style-type: none"> a. Provide results of the Karnofsky Performance Status (KPS) or Eastern Cooperative Oncology Group (ECOG) Performance Status b. Documentation that the member has been counselled that the device must be worn at least 18 hours daily <p>For continued therapy</p> <ol style="list-style-type: none"> 1. Date and results of the most recent MRI imaging prior to the request to continue therapy 2. Documentation that member is taking Temozolomide as the only cancer drug 3. Provide results of the Karnofsky Performance Status (KPS) or Eastern Cooperative Oncology Group ECOG Performance Status 4. Documentation that the member has been wearing the device for at least 18 hours per day
Electrical and Ultrasound Bone Growth Stimulators	<p>Electrical and Bone Growth Stimulators (E0747, E0748 & E0749)</p> <p>Medical notes documenting the following, when applicable:</p> <ol style="list-style-type: none"> 1. Current physician prescription or order 2. Any risk factors that apply: <ol style="list-style-type: none"> a. Member with co-morbid conditions such as diabetes, obesity, osteoporosis, or current tobacco use that could compromise bone healing

Service	Medical Records Used for Reviews
	<ul style="list-style-type: none"> b. Spondylolisthesis (including grade) c. If the member has had or will be having a spinal fusion, include the following: <ul style="list-style-type: none"> i. Date of surgery, either past or future and number of vertebral levels fused; or ii. Documentation of failed spinal fusion and date of reoperation of same site <p>Ultrasonic Bone Growth Stimulators (E0760) Medical notes documenting the following, when applicable:</p> <ul style="list-style-type: none"> 1. Current physician prescription or order 2. Date, site and type of fracture 3. Diagnostic imaging reports 4. Treatment of the fracture, including treatment already completed (date of surgery(ies) if applicable) and treatment planned
Electrical Stimulation for the Treatment of Pain and Muscle Rehabilitation - Functional Neuromuscular Stimulation (FES)	Medical notes documenting the following, when applicable: <ul style="list-style-type: none"> 1. Date of spinal cord injury and/or restorative surgery 2. Specific device to be implanted 3. Intact lower motor units (both muscle and peripheral nerve) 4. Muscle and joint stability for weight bearing and the ability to support upright posture independently 5. Muscle contractions and sensory perception response 6. Transfer ability and independent standing tolerance 7. Hand and finger dexterity 8. Absence of hip and knee degenerative disease 9. Absence of history of long bone fracture secondary to osteoporosis 10. High level of motivation, commitment and cognitive ability for device use
Electrical Stimulation for the Treatment of Pain and Muscle Rehabilitation - Neuromuscular Electrical Stimulators (NMES)	Medical notes documenting the following, when applicable: <ul style="list-style-type: none"> 1. Current prescription from physician 2. Diagnoses for the condition(s) needing treatment 3. Clinical notes including: <ul style="list-style-type: none"> a. History b. Physical exam c. Laboratory testing 4. Physician treatment plan
Epidural Steroid Injections for Spinal Pain	For initial Injection medical notes documenting the following, when applicable: <ul style="list-style-type: none"> 1. Diagnosis 2. History of the medical condition(s) requiring treatment or surgical intervention 3. Documentation of signs and symptoms; including onset, duration, and frequency 4. Physical exam demonstrating presence of radicular pain 5. Relevant medical history related to the spine or surrounding tissues 6. Treatments tried (e.g. pharmacotherapy, exercises), failed, or contraindicated; include the dates, duration of treatment and reason for discontinuation 7. Relevant surgical history, including dates 8. Reports of all recent imaging studies and applicable diagnostics 9. Physician treatment plan, including: <ul style="list-style-type: none"> a. Location of proposed injection (side and level)

Service	Medical Records Used for Reviews
	<ul style="list-style-type: none"> b. Plan for use of fluoroscopic, CT or ultrasound guidance <p>10. For subsequent injection, in addition to the above, also include the following:</p> <ul style="list-style-type: none"> a. Response to initial epidural injection, including <ul style="list-style-type: none"> i. Duration of the effect ii. Percentage of pain reduction
Facet Joint and Medial Branch Block Injections for Spinal Pain	<p>For the initial injection provide medical notes documenting the following, when applicable:</p> <ul style="list-style-type: none"> 1. Diagnosis 2. Documentation of history of the medical condition(s), signs and symptoms; include onset, duration, and frequency, finding suggesting facet joint origin, severity of pain on a 1-10 scale after conservative treatment (e.g., pharmacotherapy, exercises) 3. Physical exam, including presence of findings on facet loading maneuvers 4. Relevant medical and surgical history; including history of previous spinal procedures/interventions, including but not limited to previous facet injection and previous surgery(ies) 5. Treatments tried, failed, or contraindicated; include the dates, duration of treatment and reason for discontinuation 6. Reports of all recent imaging studies and applicable diagnostics 7. Physician treatment plan, including: <ul style="list-style-type: none"> a. Location of proposed injection (side and level) b. Plan for radiofrequency joint denervation/ablation procedure 8. For second injection in addition to the above, also include the response to initial facet injection, including: <ul style="list-style-type: none"> a. Level, side and date of initial and second injection b. Duration of the effect c. Description of functional improvement of physical functions
FDA Cleared or Approved Companion Diagnostic Testing	<p>Medical notes documenting the following, when applicable:</p> <ul style="list-style-type: none"> 1. Results of prior companion diagnostic testing, if applicable 2. Intended drug for which the companion diagnostic test is approved 3. Diagnosis and clinical stage 4. Intended tissue source 5. Line of therapy being considered

Habilitation and Rehabilitation Therapy (Occupational, Physical and Speech) – For Community Plans	<p>For Community Plan members provide documentation as indicated in the UHC Community Plan Medical Policy for Habilitation and Rehabilitation Therapy (Occupational, Physical, and Speech)</p> <p>Request for the initial therapy evaluation/ initial therapy visit: A provider (PCP) (MD, DO, PA, or NP) or appropriate specialist referral for the speech, physical and occupational therapy evaluation must be on file prior to the completion of the evaluation, unless this requirement is exempted by the state. The therapy evaluation report must include all of the following:</p> <ol style="list-style-type: none"> 1. A statement of the member's medical history; and 2. A comparison prior level of function to current level of function, as applicable; and 3. A description of the member's functional impairment including its impact on their health, safety, and/or independence; and 4. A clear diagnosis including the appropriate ICD-10 code; and 5. Reasonable prognosis, including the member's potential for meaningful and significant progress; and 6. Baseline objective measurements (current versions of Standardized Assessments), including a description of the member's current deficits and their severity level which include: <ol style="list-style-type: none"> a. Current Standardized Assessment scores, age equivalents, percentage of functional delay, criterion-referenced scores and/or other objective information as appropriate for the member's condition or impairment b. Standardized assessments administered must correspond to the delays identified and relate to the long- and short-term goals c. Standardized assessments results will not be used as the sole determinant as to the medical necessity of the requested initial therapy visit d. If the member has a medical condition that prevents them from completing standardized assessment(s), alternative could include:

Service	Medical Records Used for Reviews
	<ul style="list-style-type: none"> i. The therapist provides in-depth objective clinical information using task analysis to describe the member's deficit area(s) in lieu of standardized assessments ii. The therapist should include checklists, caregiver reports or interviews, and clinical observation <p>The initial authorization for therapy must also include a Plan of Care (POC). Providers must develop a member's POC based on the results of the evaluation. The POC must include all the following:</p> <ul style="list-style-type: none"> 1. Functional or physical impairment; and 2. Short and long-term therapeutic goals and objectives: 3. Treatment goals should be specific to the member's diagnosed condition or functional or physical impairment 4. Treatment goals must be functional, measurable, attainable and time based 5. Treatment goals must relate to member-specific functional skills and 6. Treatment frequency, duration, and anticipated length of treatment session(s) <p>Re-evaluations must be completed at least once every twelve months or more frequently based on state regulatory requirements to support the need for on-going services. Re-evaluations performed more often than once should only be completed when the member experiences a significant change in Functional Level in their condition or functional status. The documentation must be reflective of this change. Re-evaluations must include current Standardized Assessment scores, percentage of functional delay, criterion referenced scores or other objective information as appropriate for the member's condition or impairment. The therapy re-evaluation report must include all of the following:</p> <ul style="list-style-type: none"> 1. Date of last therapy evaluation; and 2. Number of therapy visits authorized, and number of therapy visits attended; and 3. Compliance to home program; and 4. Description of the member's current deficits and their severity level documented using objective data; and 5. Objective demonstration of the member's progress towards each treatment goal: 6. Using consistent and comparable methods to report progress on long- and short-term treatment goals established 7. For all unmet goals, baseline and current function so that the member's progress towards goals can be measured and 8. An updated statement of the prescribed treatment modalities and their recommended frequency/duration; and 9. A brief prognosis with clearly established discharge criteria; and 10. An updated individualized POC must include updated measurable, functional and time-based goals: <ul style="list-style-type: none"> a. The updated POC/progress summary must not be older than 90 days; and b. If the majority of the long and short-term goals were not achieved, the plan of care must include a description of the barriers or an explanation why the goal(s) needed to be modified or discontinued and 11. A revised POC that the treating therapist has not made a meaningful update to support the need for continued services will not be accepted. In addition, the notation of the percentage accuracy towards the member's goals alone is not sufficient to establish a need for continued, Medically Necessary therapy <p>All treatment session notes must include:</p> <ul style="list-style-type: none"> 1. Date of treatment 2. Specific treatment(s) provided that match the CPT code(s) billed 3. Start and stop time in treatment

Service	Medical Records Used for Reviews
