

PPACA No Cost-Share (\$0) Preventive Medications

By drug category

Preventive medications help keep you from getting certain health conditions or to keep them from coming back.

Certain preventive medications are available at no cost-share (\$0) to you.

Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires plans to cover the full cost of some prescription preventive medications and over-the-counter (OTC) products. This means you won't pay any cost-share (copay, coinsurance and/or deductible) to fill them.

The U.S. Preventive Services Task Force and the Institute of Medicine provide guidance on which drug classes to include. Their goal is to help prevent disease and meet women's unique health care needs.

Not all plans cover contraceptive products

Contraceptive products are used to prevent pregnancy. Some employers can choose not to cover these products at \$0 based on their religious beliefs.

If you're a woman with Cigna Healthcare[®] pharmacy benefits and your employer doesn't cover contraceptives, we'll make them available to you at \$0 (as the law allows). We'll keep your coverage private and won't share it with anyone; and it won't be administered or funded by, or connected in any way, to the coverage you get through your employer.

About this drug list

This is a list of the preventive medications and products that will cost you \$0 to fill under PPACA.

- **You'll need a prescription from your doctor's office** for your plan to cover these medications and products at \$0 – even if you're filling an OTC product, which doesn't usually need a prescription.
- Medications are listed in alphabetical order (A-Z) by drug class.
- Generics are listed in all lowercase letters and brands are listed in all CAPITAL letters.
- If your doctor feels a certain contraceptive or quit smoking product on this list isn't right for you, ask your doctor to contact us. We'll look for other medications that may be available at \$0.
- **This drug list is updated as the U.S. Preventive Services Task Force makes new recommendations.¹** Log in to the myCigna[®] App² or **myCigna.com[®]**, or check your plan materials, to learn more about how your plan covers preventive medications.

PPACA No Cost-Share (\$0) Preventive Medications

This is a list of the preventive medications and products that cost \$0 under PPACA. **You'll need a prescription from your doctor's office for your plan to cover them at \$0.**

Generic medications are listed in all lowercase letters and brand-name medications are listed in all CAPITAL letters.

This drug list is updated as the U.S. Preventive Services Task Force makes new recommendations.

1. This is a list of the prescription medications and over-the-counter products covered at 100% under the plan's pharmacy benefit at this time, based on existing legal requirements, and is subject to plan terms like limitations and exclusions. For example, this list of medications may change if there's a change to the legal requirements for preventive coverage.
2. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
3. Male condoms that are kept behind the pharmacy counter and given to you by the pharmacist are available at no cost-share (\$0) to you as long as you have a prescription from your doctor and fill it at an in-network pharmacy. **Quantity limits apply.**
4. **PPACA coverage requirements don't apply to all plans.** Log in to the myCigna App or myCigna.com, or check your plan materials, to find out how your plan covers these medications and how much they'll cost you.
5. If your doctor feels these medications aren't right for you, ask your doctor's office to call us. There may be other medications available at no cost-share (\$0) to you.
6. Generic hormonal contraceptives are available at no cost-share (\$0) to you, even though they may not be listed here.
7. OPILL is covered at no cost-share (\$0) as long as you have a prescription from your doctor and fill it at an in-network pharmacy. **Quantity limits apply.**
8. This medication will only be covered at no cost-share (\$0) if used alone and not in combination with other HIV medications.
9. APRETUDE needs pre-approval (prior authorization) from Cigna Healthcare before it can be covered at no cost-share (\$0). This review helps make sure that you meet the U.S. Food and Drug Administration (FDA)'s requirements for using it. If your doctor wants you to use APRETUDE, ask your doctor's office to contact us to start the coverage review process.
10. DESCOVY is covered at no cost share (\$0) as of January 1, 2025 if used alone and not in combination with other HIV medications.
11. **Quantity limits apply.** Also, generic nicotine replacement therapy (known as "store-brands") are available at no cost-share (\$0) to you, even though they may not be listed here.
12. **Not all plans cover vaccines in the same way.** Log in to the myCigna App or myCigna.com, or check your plan materials, to find out how your plan covers them. You can also see a current list of covered vaccines and pharmacies in your plan's network. Most travel-related vaccines aren't covered. Call your pharmacy to make sure your plan covers the vaccine you need and it's available at their location. You shouldn't need to make an appointment to get a vaccine. If you use an out-of-network pharmacy, vaccines may not be covered or may be subject to your plan's copay, coinsurance and/or deductible.

Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.

Discrimination is against the law.

Medical coverage

Cigna Healthcare complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Cigna Healthcare does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Cigna Healthcare:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact customer service at the toll-free number shown on your ID card, and ask a Customer Service Associate for assistance.

If you believe that Cigna Healthcare has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by sending an email to **ACAGrievance@Cigna.com** or by writing to the following address:

Cigna Healthcare

Nondiscrimination Complaint Coordinator
P.O. Box 188016
Chattanooga, TN 37422

If you need assistance filing a written grievance, please call the number on the back of your ID card or send an email to **ACAGrievance@Cigna.com**. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:
