

## Generic Choices Medication Guide

## July 2025

Please consider talking to your doctor about prescribing one of the covered generic or brand medications that are indicated as covered under your plan; that may help reduce your out-of-pocket costs. This list may help guide you and your doctor in selecting an appropriate medication for you.

The drug formulary is regularly updated. Please visit <u>www.floridablue.com</u> for the most up-to-date information.

#### Introduction

Florida Blue is pleased to present the Generic Choices Medication Guide. This is a general guide that includes a comprehensive listing of medications that are covered under your plan. Since coverage for medication varies by the plan purchased by you or your employer, it's important that you refer to your plan documents for complete coverage details. When we refer to "plan documents" we are ref erring to one or more of the following: Benefit Booklet, Certificate of Coverage, Contract, Member Handbook or prescription drug endorsement.

The Generic Choices Medication Guide provides helpful tips on how to make the most of your pharmacy benefits and details about the various coverage programs that are designed to provide safe and appropriate medication when you need it. Changes in the formulary can occur over time and the most up-to- date listing can always be found by viewing the Generic Choices Medication Guide online at <a href="https://www.floridablue.com">www.floridablue.com</a> or by calling the customer service number listed on your member ID card. For the hearing impaired, call Florida TTY Relay Service 711.

If you are a current member, we encourage you to log on to your member account for plan specific details about your medication coverage. Go to <a href="www.floridablue.com">www.floridablue.com</a>, click on the Members tab. Once registered, you can look up a medication by name and compare your cost at different pharmacies. You'll see notes that indicate if a medication requires a prior authorization or is not covered by your plan.

Si de se a hablar sobre esta guía en español con uno de nuestros representantes, por favor llame al número de atención al cliente indicado en su tarjeta de asegurado y pida ser transferido a un representante bilingüe.

**NOTE:** The decision concerning whether a prescription medication should be prescribed must be made by you and your physician. Any and all decisions that require or pertain to independent professional medical judgment or training, or the need for, and dosage of, a prescription medication, must be made solely by you and your treating physician in accordance with the patient/physician relationship.

#### **Key Tips and Coverage Guidelines**

By following these simple guidelines, you will be assured that you are getting the maximum benefit from your plan.

- When you have your prescriptions filled, ask your pharmacist if a generic equivalent is available. Generic
  medications are usually less expensive, and most generics are covered unless specifically excluded under your
  plan documents. Medications that are not covered may be found at Medications Not Covered List.
- Brand name medications are covered on your plan only if they are included in the medication list. Brand name medications not listed in the medication list are not covered.
- If you are currently taking a medication, take a moment to review the medication list to determine if it is covered.
   If you or your provider request a covered brand name medication when there is a generic available; you will be responsible for: (1) the difference in cost between the generic medication and the brand name medication you received; and (2) the cost share applicable to the brand name medication you received, as indicated on your Schedule of Benefits.

#### **Medication List**

## What you need to know about generic medications

Florida Blue encourages the use of generic medications as a way to provide high-quality medications at reduced costs. Generic medications are as safe and effective as their brand name counterparts and are usually considerably less expensive.

A Food and Drug Administration (FDA) approved generic medication may be substituted for its brand name counterpart because it:

- Contains the same active ingredient(s) as the Brand medication.
- Is identical in strength, dosage form, and route of administration.
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile.

#### Changes to the formulary

This guide includes the medication list which reflects the current recommendations of Florida Blue and is developed in conjunction with Prime Therapeutics' National Pharmacy & Therapeutics Committee. Florida Blue reserves the right to add or remove or change the tier of any medication in this Medication Guide at any time.

The medication list is reviewed quarterly to examine new medications and new information about medications that are already on the market concerning safety, effectiveness, and current use in therapy.

There are varying reasons changes are made to the medications listed in the Generic Choices Medication Guide:

- The tier level of a brand name medication included on the medication list may increase (change to a higher tier or non-covered) when an FDA-approved bioequivalent generic medication becomes available.
- Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication, to determine whether the medication will be covered and if so, which tier will apply based on safety, efficacy and the availability of other products within that class of medications.

The most up-to-date information about modifications to the medications listed in this medication guide can be found by going to www.floridablue.com.

Going to www.floridablue.com.

- Click on the **Members** tab.
- Click on the Login Now button and either Login or Register.
- Once Logged in, click on My Plan, then select Pharmacy under Additional Items.
- Under Pharmacy Resources, click on Medication Guide & Specialty Pharmacy
- Under Medication Guide/Approved Drug Lists, click Generic Choices Medication Guide. Medication Guides are posted every January, April, July, and October.

#### Formulary addition request

Physicians may request the addition of a medication to the formulary list by submitting a written request to Florida Blue.

Please mail to:

Florida Blue

Attn: Pharmacy Programs

P.O. Box 1798

Jacksonville, FL 32231-0014

Florida Blue is a trade name of Blue Cross and Blue Shield of Florida, Inc. Florida Blue HMO is a trade name of Health Options, Inc., an affiliate of Blue Cross and Blue Shield of Florida, Inc. These companies are Independent Licensees of the Blue Cross and Blue Shield Association.

## **Your Share of Expenses**

Your cost share will depend on which cost share tier the medication is assigned. You can determine your outof-pocket amount for medication by reviewing your Schedule of Benefits. For HSA plans, the cost share applies only after your deductible is satisfied.

## **Pharmacy Benefits**

The pharmacy benefit has two parts/components, called Tiers. This means that covered medications must be included in one of the following Tiers:

Tier 1: Generic Prescription Drugs, Covered OTC Drugs and Covered Prescription Supplies.

**Tier 2:** Only those Brand Name Drugs indicated as covered in the Medication Guide.

#### Medications that are not covered

Generic Choices is a generic and limited brand formulary pharmacy plan. This means any medications not on the formulary (included in the medication list) are not covered. Some of the reasons a medication may not be covered are:

- The medication has been shown to have excessive adverse effects and/or safer alternatives.
- The medication has a preferred formulary alternative or over-the-counter (OTC) alternative.
- The medication is no longer marketed.
- The medication has a widely available/distributed AB rated generic equivalent formulation.
- The medication has not been approved by the FDA.
- The medication has been repackaged a pharmaceutical product that is removed from the original manufacturer container (Brand Originator) and repackaged by another manufacturer with a different NDC.
- The medication is not covered because of safety or effectiveness concerns.

In addition to any drug not listed in the medication guide, a list of certain medications that are not covered may be found at <u>Medications Not Covered List</u>.

**NOTE:** To determine the medication exclusions that apply to your plan, check your plan documents. Coverage details are also available to you by logging into the member section of <a href="www.floridablue.com">www.floridablue.com</a>.

Page 4 | 12

## **Generic drugs**

Florida Blue encourages the use of generic medications as a way to provide high-quality medications at a reduced cost. Generic medications are as safe and effective as their brand name counterparts and are usually considerably less expensive.

A Food and Drug Administration (FDA) approved generic medication may be substituted for its brand name counterpart because it:

- Contains the same active ingredient(s) as the brand name medication.
- Is identical instrength, dosage form, and route of administration.
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile.

#### **Oral Chemotherapy Drugs**

Oral chemotherapy drugs are drugs prescribed by a physician to kill or slow the growth of cancerous cells in a manner consistent with the national accepted standards of practice. A list of these drugs can be found at: <u>Oral Chemotherapy Drug List.</u>

#### Over-the-counter (OTC) medications

An over-the-counter medication can be an appropriate treatment for some conditions and may offer a lower cost alternative to some commonly prescribed medications. Your pharmacy benefit may provide coverage for select OTC medications. Some groups may customize their pharmacy plan to exclude coverage for OTC medications, so it is important to check your plan documents to determine if OTC medications are covered under your plan. Only those OTC medications prescribed by your physician and designated on the formulary with "OTC" in parenthesis following the medication name are eligible for coverage.

**NOTE:** Check your plan documents to determine if this benefit applies to your plan. Coverage details are also available to you by logging into the member section of <a href="https://www.floridablue.com">www.floridablue.com</a>.

#### Patient Protection and Affordable Care Act (ACA) Preventive Services

 <u>Preventive Medications</u> – Certain preventive care services, medications, and immunizations are covered at no cost share when purchased at a participating pharmacy.

A list of medications covered under this benefit may be found at: <u>Preventive Medications List</u>.

A list of medications covered under this benefit for HSA plans may be found at: <u>HSA Preventive List</u>.

• Immunizations - Certain vaccines which are covered under your preventive benefits can be administered by pharmacists that are certified. Not all pharmacies provide services for vaccine administration. It is important to contact the pharmacy prior to your visit to ensure availability and administration of the vaccine. Otherwise, contact your doctor for availability and administration of the vaccine.

A list of vaccines that are covered under your pharmacy benefits may be found at: <a href="Pharmacy Benefit Vaccines">Pharmacy Benefit Vaccines</a>
List.

Women's Preventive Services – Certain contraceptive medications or devices (e.g., oral
contraceptives, emergency contraceptive, and diaphragms) are covered at no cost
share when purchased at a participating pharmacy. A list of medications and devices
covered under this benefit may be found at: Women's Preventive Services List.

## Tier Exception Requests for Contraceptives & HIV Pre-Exposure Prophylaxis (PrEP)

If, for medical reasons, you need a contraceptive or HIV PrEP medication that is not included on these Preventive Service list(s), you may request an exception to waive the otherwise applicable cost sharing for your medication. To request an exception, your doctor must complete and submit request online at covermymeds.com or by fax using the Exception Request Forms in links below.

Contraceptives Tier Exception Request Form

**HIV PrEP Tier Exception Request Form** 

#### **Specialty Pharmacy medications**

Specialty Pharmacy medications are high-cost injectable, infused, oral or inhaled medications that generally require close supervision and monitoring of the patient's therapy.

**NOTE**: Check your plan documents for information on how Specialty Pharmacy medications are covered on your plan. Specialty Medications are divided into two categories:

- Self-Administered Specialty Medications Patients administer these Specialty Pharmacy medications
  themselves. Because these medications are intended to be self-administered, these medications may not be
  covered if administered in a physician's office. If these medications are not obtained from a participating
  specialty pharmacy, out-of-network coverage is not available. <u>A current listing of Self-Administered Specialty</u>
  Medications can be found here
  - Self -administered injectable medications are designated in the Medication List with "inj" following the medication name (e.g., enoxaparin inj). No other Self-administered injectables will be covered unless such injectable is identified as a Specialty Drug in this Medication Guide. Self-administered injectables will be subject to the Brand or Generic cost share, as described in your Schedule of Benefits. Florida Blue reserves the right to change the Self-administered injectables covered through your plan at any time and for any reason.
- <u>Provider-Administered Specialty Medications</u> These medications require the administration to be performed by a physician. The Specialty Pharmacy medications are ordered by a provider and administered in an office or outpatient setting. Provider-administered Specialty Pharmacy medications are covered under your medical benefit. These medications can be obtained from any in-network health care provider. <u>A current listing of Provider-Administered Specialty Medications can be found here</u>

**NOTE:** Only generic or certain brand name Self-Administered and/or Provider-Administered Specialty Pharmacy products, as listed in the Generic Choices Medication Guide, are covered under the Generic Choices Pharmacy Plan. We have noted medications that may be covered as either Self-Administered and/or Provider-Administered. These generic or brand equivalents Specialty Pharmacy products can be obtained in either setting.

## **Pharmacy Options**

There are two differenttypes of pharmacies for you to be aware of as you decide where to get your prescriptions filled: retail pharmacies and specialty pharmacies. To save the most money, before you get a prescription filled, you should confirm which pharmacy is considered 'in-network' for that particular medication.

## **Participating Pharmacy**

- <u>Retail Pharmacy Network</u> Non-Specialty 'Generic' medications and 'Brand Name' medications listed in the Medication Guide can be filled at these pharmacies at a lower cost to you than other pharmacies in your area. If you go to a non-participating pharmacy, your prescription will cost you more.
- Specialty Pharmacy Network We have identified certain drugs as specialty drugs due to requirements such as special handling, storage, training, distribution, and management of the therapy. These drugs are listed as a 'Specialty Drug' in this Medication Guide. To be covered under your pharmacy program at the in-network cost share, they must be purchased at a preferred Specialty Pharmacy. These pharmacies are different than the retail pharmacies and are identified in both the Provider Directory and this Medication Guide. Using an in-network Specialty Pharmacy to provide these Specialty Drugs lowers the amount you pay for these medications.
  - Limited Distribution (LD) Pharmacy Drug manufacturers will choose one or a limited number of specialty pharmacies to handle and dispense certain specialty drugs. Typically, these drugs are costly and require special monitoring and prior authorization (pre-approval). To find the pharmacy that dispenses your limited distribution drug, can be found here follow these steps: <u>Limited Distribution</u> Drugs

## **Non-Participating Pharmacy**

- If your plan offers out-of-network pharmacy coverage, choosing a non-participating pharmacy will cost you
  more money. You may have to pay the full cost of the medication and then file a claim for benefit
  determination. Our payment will be based on our Non-Participating Pharmacy Allowance minus your cost
  share. You will be responsible for your cost share and the difference between our Allowance and the cost of
  the medication.
- If your plan doesn't offer out-of-network pharmacy coverage, choosing a non-participating pharmacy may risk your ability to be reimbursed. You may have to pay the full cost of the medication.

## **Participating Specialty Pharmacy Providers**

Your network for Specialty Pharmacies is limited to the following participating Specialty Pharmacy providers. Unless indicated below, any other pharmacy is considered a non-participating Specialty Pharmacy even if it participates in Florida Blue's networks for non-Specialty Pharmacy medications. You may pay more out of pocket if you use a different specialty pharmacy.

#### **CVS/Caremark Specialty Pharmacy Services**

Generic Provider-Administered and Self-Administered Products; excluding hemophilia Telephone: (866) 278-5108

Fax: (800) 323-2445

CVS/Caremark Specialty Pharmacy

#### Accredo

Generic Self-Administered Products; excluding hemophilia Telephone: (888) 425-5970 Fax: (888) 302-1028

Accredo

## NOTE: Specialty Pharmacy medications are not covered when purchased through the Mail Order pharmacy.

Self-administered specialty medications as classified by Florida Blue outside of the state of Florida may be obtained by a member with a written prescription through the preferred specialty pharmacy providers <u>Accredo</u> or <u>CVS/Caremark Specialty</u>.

If a member resides or is traveling outsides the state of Florida and needs to receive a provider-administered specialty medication, the prescribing physician should coordinate with the participating specialty pharmacy provider for their area or contact the local BlueCross and BlueShield Plan. This coordination can help ensure members receive their medications at the in-network cost share.

If you receive a written prescription directly from your provider for a provider-administered specialty medication you should contact customer service for further assistance.

## **Home Delivery Pharmacy**

Most plans home delivery pharmacy is serviced by <u>Amazon Pharmacy</u>. To confirm your home delivery pharmacy provider, log into <u>floridablue.com</u> and view the home delivery section in your member account for additional details.

**NOTE**: If the original prescription was filled at a pharmacy other than the home delivery pharmacy, a new, original three-month supply prescription with a quantity of up to a three-month supply and not less than a two-month supply will be required. Prescriptions may not be transferred from a retail pharmacy to the home delivery pharmacy.

#### Three-month supply at Retail Pharmacy

In addition to being able to obtain up to a three-month supply of medication through our home delivery pharmacy, you may be able to receive up to a three-month supply of your medication through a participating retail pharmacy. Please refer to your plan documents to determine if your plan includes this benefit.

## **Utilization Management Programs**

#### **Prior Authorization Program**

The Prior Authorization Program encourages the appropriate, safe and cost-effective use of medications. If you are currently taking or are prescribed a medication that is included in the Prior Authorization Program, your physician will need to submit a request form in order for your prescription to be considered for coverage. If you do not request and/or receive prior approval, the medication will not be covered. Medications that require prior authorization for coverage are indicated in the prior authorization column following the product name in the medication list.

Florida Blue reserves the right to change the medications that require Prior Authorization at any time and for any reason.

**NOTE**: Some groups may customize their pharmacy plan to exclude prior authorization requirements, so it is important to check your plan documents to determine if prior authorization requirements apply to your plan. Coverage details are also available to you by logging into the member section of <a href="https://www.floridablue.com">www.floridablue.com</a>.

**NOTE**: Prior Authorizations expire on the earlier of, but not to exceed 12 months for most medications:

- The termination date of your policy or
- The period authorized by us, as indicated in the letter you received from us.

#### **Obtaining Prior Authorization**

Information about prior authorization and forms for how to obtain a prior authorization approval can be found here: Prior Authorization Program Information and Forms

**NOTE:** Your provider is required to complete and submit the Prior Authorization form in order for a coverage determination to be made.

- 1. Once a decision is made, you and/or your doctor will be informed of the decision.
- 2. If the decision is made to authorize coverage, the medication(s) and/or supplies may be obtained from a participating pharmacy or at the appropriate location if the medication(s) will be administered by a health professional. Prior authorization approval does not waive your cost share.
- 3. If a decision is made to deny authorization, you are free to purchase the prescription medication, supplies or Over-the- Counter (OTC) medication, but you will have to pay the full cost of the medication and will not be entitled to reimbursement under your plan.

**NOTE**: You have the right to request an appeal if prior authorization is denied. Please refer to the 'How to Appeal an Adverse Benefit Determination' subsection of the Complaint and Grievance Process section in your current Benefit Booklet or Contract for information on how to file an appeal.

#### **Responsible Quantity Program**

The Responsible Quantity Program encourages the appropriate, safe and cost-effective use of medication by setting a maximum quantity per month for a medication or supply. The quantity limitations are based on the Food and Drug Administration guidelines and the manufacturer's dosing recommendations. Medications that are subject to this program are indicated in the quantity limits column following the product name in the medication list.

Information about the Responsible Quantity Program and steps for how to obtain an exception can be found here:

Responsible Quantity Program Information
Responsible Quantity Authorization Form

#### **Responsible Steps Program**

The Responsible Steps Program promotes the appropriate, safe, and effective use of medications and helps you save on prescriptions. Responsible Steps is based on nationally recognized therapeutic guidelines, clinical evidence, and research. Prescription medications included in the Responsible Steps Program are not covered unless you have tried one or more covered alternative medications first.

A list of current drugs included in the Responsible Steps Program may be found here:

Responsible Steps Program Information and Authorization Forms

#### **Responsible Steps Program for Medical Pharmacy**

Certain physician-administered prescription drugs which are rendered in a physician's office may be included in the Responsible Steps for Medical Pharmacy Program. If you are taking a medication in the Responsible Steps Program, please contact your physician/provider to discuss what medication options are best for you.

If, due to medical reasons, you cannot use the prerequisite drug and require the Responsible Steps Medication, your doctor or health care provider may request prior authorization for an override. If the override request is approved, coverage will be provided for the Responsible Steps Medication. Florida Blue reserves the right to change the drugs subject to the Responsible Steps Program at any time and for any reason.

A list of current drugs included in the Responsible Steps Program for Medical Pharmacy may be found here: Responsible Steps Program for Medical Pharmacy Information and Authorization Forms

**NOTE**: Check your plan documents to determine if Responsible Steps requirements apply to your plan. Coverage details are also available to you by logging into the member section of <a href="www.floridablue.com">www.floridablue.com</a> or by calling the customer service number listed on your ID card.

#### **Coverage Protocol Exemption**

Your doctor may want to prescribe a medication for a condition that is different from the step-therapy protocol developed by Florida Blue. If this is the case, either you or your doctor can request an exemption by submitting a <u>Coverage Protocol Exemption Request.</u>

#### **Notice**

This Medication Guide shall not extend, vary, alter, replace, or waive any of the provisions, benefits, exclusions, limitations, or conditions contained in the Benefit Booklet, Contract, or prescription drug endorsement. In the event of any inconsistencies between the Medication Guide and the provisions contained in the Benefit Booklet, Contract or prescription drug endorsement, the provisions contained in the Benefit Booklet, Contract or prescription drug endorsement shall control to the extent necessary to effectuate the intent of Florida Blue and Florida Blue HMO.

## How to use this Drug list

Column 1: Drug Category

The drug list is organized into broad categories (e.g., HORMONES, DIABETES AND RELATED DRUGS).

#### Column 2: Drug Name

Please use the drug search function (Ctrl+F) to find current information for drugs on the drug list. Generic drugs are shown in lower-case **boldface** type. Brand prescription drugs are shown in capital letters. The Requirements/Limits column displays information about whether that drug requires prior authorization, responsible step, limited distribution, or quantity limits. Below are the meanings of the indicators used in the Drug Tier and Requirements/Limits columns.

#### Column 3: Drug Tier

Indicates the formulary tier level for each drug.

#### Column 4: Specialty (SP)

Indicates this is a self-administered specialty drug.

Note: Additional information about specialty drugs can be found in this document under Specialty Pharmacy medications, Self-Administered.

#### Column 5: Prior Authorization (PA)

Some drugs require prior authorization to ensure appropriate use and prescribing before a drug will be covered. Coverage may be approved after certain criteria are met. Approval is required for claims to process at network pharmacies. If the PA indicator is present, then the PA program noted is possibly applied to your benefit.

#### **Column 6:** Limited Distribution (LD)

Drug manufacturers will choose one or limited number of specialty pharmacies to dispense drugs. Additional information about limited distribution drugs can be found in this document under Participating Pharmacy.

#### **Column 7:** Quantity Limits (QL)

Certain drugs have quantity limits to encourage safe and appropriate use. The quantity limit is the maximum quantity that can be dispensed over a given period of time. If the QL indicator is present, then the QL program noted is possibly applied to your benefit.

Some plans may have Utilization Management (UM) programs (e.g., PA, QL, and ST) on additional drugs beyond those noted in this document.

## Abbreviation/acronym key
