Subject: Code and Clinical Editing Guidelines - Professional		
Policy Number: C-09004	Policy Section: Administration	
Last Approval Date: 05/19/2023	Effective Date: 10/01/2023	

Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by an Anthem Blue Cross and Blue Shield (Anthem) member's benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or revenue codes. These codes denote the services and/or procedures performed and when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Anthem may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date, in accordance with the policy. We reserve the right to review and revise these policies when necessary. When there is an update, we will publish the most current policy to the website.

Policy

The Health Plan applies Code and Clinical Editing Guidelines (CCEG) to evaluate claims for accuracy and adherence to accepted national industry standards and plan benefits unless provider, state, or federal contracts and/or mandates indicate otherwise.

The Health Plan uses software products that ensure compliance with standard code edits and rules. These products increase consistency of payment for providers by ensuring correct coding and billing practices and may automatically apply edits using the software's editing logic. CCEG consists of the following measures:

- Code editing software, CMS National Correct Coding Initiative (NCCI) edits and Outpatient Code Edits (OCE)
 - o Code editing software is updated to conform to changes in coding standards
 - National Correct Coding Initiative (NCCI) edits are updated according to CMS published updates:
 - PTP (procedure to procedure)
 - MUE (Medically Unlikely Edits)
- Clinical criteria
- Claims processing platform
- Per state requirements, the Health Plan publishes the use of specific commercial code editing software
- The Health Plan only customizes applicable CCEG measures due to compelling business reasons

The Health Plan also uses a coding algorithm approach to automatically adjudicate Evaluation and Management claims based on the applicable level of complexity or severity in accordance with diagnosis codes reported on the claims.

CCEG measures are updated as applicable and as needed to incorporate new codes, code definition changes, and edit rule changes.

All claims submitted after the configuration implementation date, regardless of service date, will be processed according to up to date CCEG measures. No retrospective payment changes, adjustments, and/or requests for refunds will be made when processing changes are a result of new code editing rules within a module update. The member is not responsible and should not be balance billed for any procedures for which payment has been denied or reduced as the result of CCEG measures. Please refer to the Health Plan's reimbursement policies for specific reimbursement rules.

Non-reimbursable

The Health Plan will not reimburse in the event of a conflict with CCEG.

Note: When a service unit exceeds an MUE, the claim line(s) will be denied.
