Last Approval Date: 04/01/2024	Effective Date: 07/01/2024	

Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by an Anthem Blue Cross (Anthem) member's benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or revenue codes. These codes denote the services and/or procedures performed and when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Anthem may:

- · Reject or deny the claim.
- Recover and/or recoup claim payment.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date, in accordance with the policy. We reserve the right to review and revise these policies when necessary. When there is an update, Anthem will publish the most current policy to the website.

Policy

The Health Plan allows reimbursement for an assistant surgeon when eligible procedures are billed with Modifiers 80, 81, 82, or AS unless provider, state, or federal contracts and/or requirements indicate otherwise. Eligible procedures are identified using the Centers for Medicare and Medicaid Services (CMS) Medicare Physician Fee Schedule (MPFS) Assistant Surgery payment indicators for reimbursement and applied using the guidelines indicated below.

Reimbursable:

- Codes identified with MPFS Assistant Surgery payment indicator '2'.
- Only one assistant surgeon per covered surgical procedure.

Nonreimbursable:

- Codes identified with MPFS Assistant Surgery payment indicators '0', '1', and '9'.
- Procedures requiring assistance for positioning and retraction for maintaining visualization.
- Applicable assistant surgeon modifier billed inappropriately.

Procedures reported with an assistant surgeon modifier are subject to multiple surgery reimbursement rules.

The assistant at surgery should not report procedure codes different from the procedure codes reported by the primary surgeon, **EXCEPT** if the primary surgeon bills an OB global code; then the assistant at surgery would bill the specific surgery code with the appropriate modifier.

Related Coding	Related Coding		
Code	Description	Comments	
Modifier 80	physician providing assistance in surgery	16% of the allowance	
Modifier 81	physician providing minimum assistance in surgery	16% of the allowance	
Modifier 82	physician providing assistance in surgery when qualified resident not available	16% of the allowance	
Modifier AS	non-physician providing assistance in surgery	16% of the allowance under the applicable physician extender fee schedule. If there is no applicable physician extender fee schedule, the Assistant Surgeon services will be eligible for reimbursement under the applicable physician fee schedule at 14% of the allowance for the primary procedure.
